## Contents

<b>Chapter 1</b>	Introduction	9
<b>Chapter 2</b>	12/15-Lipoxygenase deficiency promotes the development of adipose tissue inflammation and insulin resistance	35
<b>Chapter 3</b>	Mitogen-activated protein kinase-activated protein kinase 2-deficiency reduces insulin sensitivity in high-fat diet-fed mice without affecting adipose tissue inflammation	59
<b>Chapter 4</b>	Increased LCAT activity and hyperglycemia are associated with decreased anti-oxidative functionality of HDL	75
<b>Chapter 5</b>	Type I diabetes mellitus decreases <i>in vivo</i> macrophage-to-feces reverse cholesterol transport despite increased biliary sterol secretion in mice	93
<b>Chapter 6</b>	Overexpression of apolipoprotein O does not impact on plasma HDL levels or functionality in human apolipoprotein A-I transgenic mice	115
<b>Chapter 7</b>	General discussion	131
<b>Appendices</b>		153
	Summary	155
	Nederlandse samenvatting	159
	Dankwoord	165
	Biografie / Biography	169
	Publication list	170
